

2022 Continuing Education Symposium Series

The Faith Community Nurse Network of the Greater Twin Cities is an interfaith, nonprofit service agency serving 400+ faith community nurses (FCNs) across Minnesota. We hold four, 3-hour symposiums every year, with nearly 200 faith community nurses, faith leaders, and other healthcare professionals attending. Our symposiums feature perspectives specific to FCN practice and provide attendees the opportunity to learn, share, and network.

Who are faith community nurses?

Faith community nurses, also known as “parish nurses” are experienced, actively licensed nurses with specialized training. Faith community nursing is a professional nursing practice focusing on intentional care of the spirit, whole-person health promotion, and disease prevention.

FCNs practice in faith communities and other community settings and serve thousands of individuals and families. They maintain trusting relationships and are crucial liaisons to community services.

What do FCNs do?

- FCNs in Minnesota average 39 years of nursing experience and reach over 130,000 individuals.
- While FCNs spend the majority of their time providing care to their congregation, nearly 20% of their time in their role is spent serving their neighborhood or community at large.
- FCNs offer a wide range of services within their practice:
 - Home and hospital visits
 - Health education
 - Support group facilitation
 - Community resource referrals
 - Personal health counseling
 - Sharing scripture
 - Organizing blood pressure screenings, flu shot clinics, health fairs
 - and much more.
