

Home and Open Circle...the best of both worlds!

Adult Day Services

Open Circle Adult Day is focused on helping its members remain active, healthy and as independent as possible, by offering a comprehensive program designed to meet individual needs during daytime hours.

We offer the opportunity to develop friendships with peers and find purpose in the day, allowing members to remain more independent and a vital part of the larger community.

Open Circle's supportive staff walk beside you and your caregiver. Caregivers are provided respite, support, education and a bridge to resources.
